CLARA CANVAS PLUS MATT AQ

matt 3579, 320 g/m^2

Universal, white canvas for industrial printing of portraits and Photos.

Clara Canvas Plus Matt is a universal artistic, cotton / polyester blend canvas for waterbased inks. Due to the weak, regular structure of the material, this product is best suited for printing portraits and photos. The white, matt coating hinders disrupting reflections and allows excellent colour reproduction. The printed material shows no white-scoring and is splashproof.

Technologies

Properties

Advantages

- Brilliant colour reproduction
- No white-scoring
- Quick dry
- Splashproof

General tips

The converting and storage should take place in a climate of 35 to 65% relative humidity at temperatures between 10 and 30°C. Due to the natural components of the material it tends to curl when relative humidity is fairly high, which can cause print head damage. We recommend that the material is first removed from original packaging when printing commences!. After the printing process put the media back in its original packaging. Cotton gloves are allways recommended when handling InkJet coated materials to avoid fingerprints.

Physical data

Name	Value	Norm
Test conditions	23°C / 50% R.F.
